CF ECHO II compact heat meter

Application

The CF ECHO II is one of the new generation of ultrasonic heat meters.

Electronic data processing gives high precision throughout the entire measurement curve, producing a dynamic range exceeding class C.

Flows can be measured from Qp 0.6 to Qp 15 m³/h (DN15 to DN50) with reliable and stable accuracy.

Available in sizes ½" to 2" or DN15 to DN50 with female threaded or PN16 and PN25 flanged end connections make the meter suitable for most installations.

All hydraulic bodies carry a flanged design helping meter installation.

The CF ECHO II can be used in heating and combined systems. The meter can be installed in both the supply or return pipes and in horizontal or vertical pipework.

Benefits

- Accurate measurement of high and low flows.
- Easy reading,
- Pre-equipped for communication.

Standards Compliance

- MID 2004/22/EC Module B+D
Class 2.0 acc. EN 1434
- Env. Class C acc. EN 1434
- OIML R75
- PTB Class C
- Test ≤ -2%
- PED compliant

Advanced Functions

The CF ECHO II provides a number of advanced functions, which are powerful diagnostic aids for network management including

- data-logging for complex network analysis
- double tariff for further billing choices
- peak recording

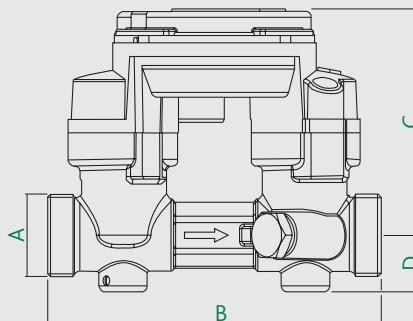

All collected data is presented on the highly ergonomic and multifunctional display.

Communication Device

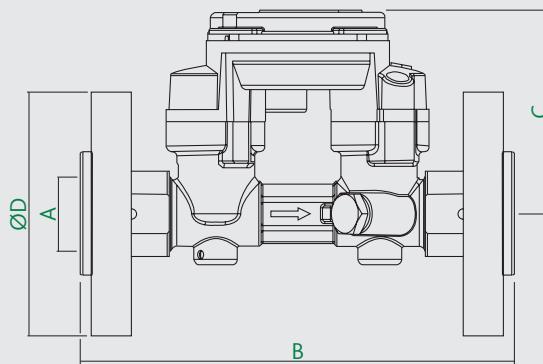

The plug and play communication boards opens the way for data collection through various reading systems.

Loop Levels

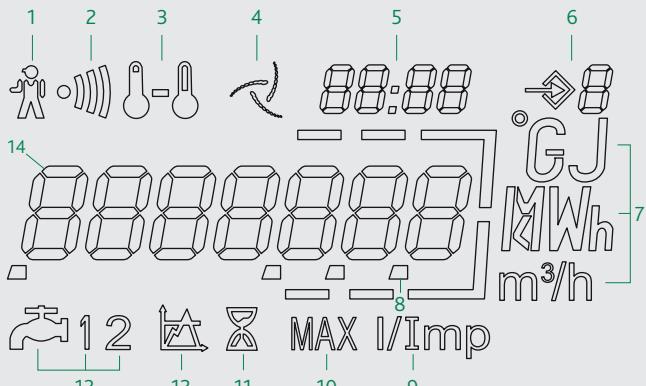

Multi-Functional Display

The multi-functional display facilitates easy reading, providing fast and clear access to the most important billing data.

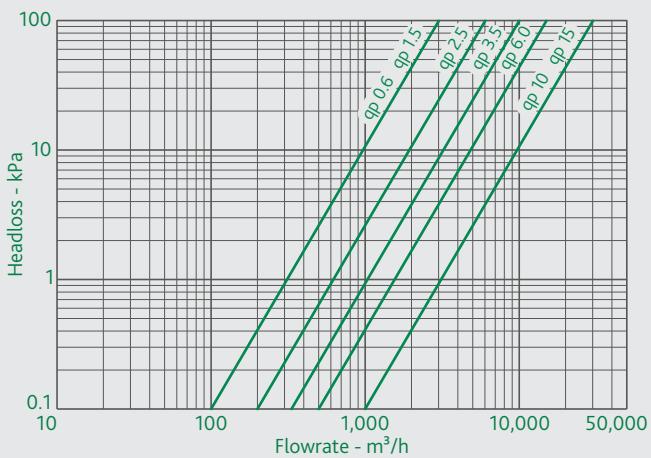

The display enables the diagnosis of failures, and the alarms provide the information at a single glance.

The LCD has a long life and each level of data is accessed by simply pressing a button.

Item	Display	Item	Display
1	Alarm icon	8	Decimal indication
2	Dirty warning	9	Pulse input value
3	Temperatures	10	Peaks
4	Flow indicator	11	Elapsed time indicator
5	Date and time digits	12	Thresholds
6	Loop indicator	13	External water meters
7	Units	14	Main digits

Headloss - Nominal Flowrates

CF EHCO II compact heat meter

Technical Characteristics

Permanent max. temperature: 130°C
Accidental max. temperature: 150°C

Product Code	Nom. flow Q _p m ³ /h	Diameter DN mm	Max. flow Q _s m ³ /h	Min. flow Q _i l/h	Start flow Q _{start} l/h	Pipe connection	Nominal pressure bar

CF ECHO II Energy Calculator

Temperature Range	0 to 180°C
Temperature Difference	3 to 160°C
Temperature sensor type	Pt100 or Pt500, 2 wire
Temperature sensor - Q _p 0.6 to 2.5 m ³ /h	Direction immersion or pocket type probes integrated in the flow meter body
Cable length to flow meter	From 0.4 to 10 m (typical 1.5 or 3 m)
Back-up memory	EEPROM
Display	LCD - 7 digit
Optical interface	EN 60870-5 / M-Bus protocol

Power supply
6 or 12 year lithium battery
230V main power supply or
power supply by M-Bus

Testing Pulse Value - Q _p	0.6	1.5	2.5	3.5	6	10	15
Temperature Range	5	10	20	25	50	100	100

Construction Details

Component	Material	Grade
Body Threaded - ¾" & 1"	Brass	BS EN 12420 CW602N
Body Threaded - 1¼" to 2"	Bronze	BS EN 1982 CC491K
Body Flanged - DN20	Brass	BS EN 12164 CW614N
Body Flanged - DN25 to 50	Bronze	BS EN 1982 CC491K
Flanges	Stainless steel	
Seals	EPDM	

CF ECHO II compact heat meter

Option Boards

The CF ECHO II is pre-equipped for communication.

Different option boards can be plugged easily to the meter and will start working automatically.

The following options are available:

- | | |
|----------|-----------------------------------------------------------------|
| Board 1: | M-Bus + E/V Repetition |
| Board 2: | M-Bus + 2 external water meters |
| Board 3: | Modem + 2 external water meters |
| Board 4: | LON + 2 external water meters |
| Board 5: | Radio + 2 external water meters |
| Board 6: | M-Bus + 2 external water meters
+ power supply M-Bus |

M-Bus

Standard reference	EN 1434-3
Baud rate	300 to 2,400 baud
Data in standard mode	Energy, Volume, Flow, Temperature (supply, return, difference), Time in error, Operation Time, Date & Time, Volume of water meters 1 & 2, Firmware version

Pulse inputs for water meters

Pulse value - independent per input	1/2.5/10/25/250/1000 L/imp
Pulse detection	Contact closed R ≤ 500Ω
Pulse detection	Contact closed R ≤ 100 kΩ

Energy and volume pulse output

Pulse value	Repetition of display Energy from 1 kWh to 1 mWh Volume from 10 litres to 1 m³
-------------	--------------------------------------------------------------------------------------

Modem application

PSTN network, meter calls programmed phone number at a pre-defined time

LON application

Transceiver	TP / FT-10
Transmission speed	78 kb/s

Radio Application

Compatibility	AnyQuest radio walk-by system EverBlu radio fixed network system (Q2-2010)
Frequency	433 mHz
Protocol	Radian open protocol
